### **Windsor, California – Town of Windsor Ranked Top 100 Safest City**

**Windsor, California (February 27, 2014)** – The neighborhood research website, NeighborhoodScout, has recognized the Town of Windsor as the 100<sup>th</sup> safest city in America for 2014.

NeighborhoodScout is a resource that provides prospective homebuyers with important information regarding the quality of schools, crime, and other data about the neighborhood they are considering.

Since 2002, NeighborhoodScout has published a list of the top 100 safest Cities in America. The list is based on the total number of crimes per 1,000 residents for cities with a population of 25,000 or more people. The data considered in their research includes the total number of crimes reported to the Federal Bureau of Investigation (FBI) via each agency's Uniform Crime Reports (UCR). The crime counts reflect the calendar year 2012, which are the most recent final report available through the FBI.

According to NeighborhoodScout, "The award honors not only the accomplishments of your police force, but also a community bonded in prideful citizenship".

Windsor Police Chief Chris Spallino said he could not agree more: "It is really a reflection of the level of involvement and commitment the Windsor residents contribute to the overall safety of their Town".

Mayor Okrepkie said, "It is an honor for Windsor to be recognized as one of the safest cities in America. We are a family-friendly community and want our residents to feel safe." Town Manager Linda Kelly added, "Our successful contract partnership with the Sonoma County Sheriff's Office continues to provide our community with outstanding service that makes this sort of nationwide recognition possible."
