

Protect our Creeks

Borrow Windsor Public Works Department's Creek-friendly Community Car Wash Kit!

Car wash runoff contains oil, grease, heavy metals, and soap. If this wash water is allowed to enter to storm drain system, all those pollutants go into our creeks **UNTREATED**. These pollutants **HARM WILDLIFE**, including the fish, birds and other living things that live in our waterways.

If your organization is planning **A FUND RAISING CAR WASH**, please borrow the Town's car washing kit. The kit has everything you need to keep pollutants from entering the storm drain system.

For more information call **(707) 838-1006** or go to the Town's website:
