Answer of Recallee statement below:

Fellow Windsor Resident,  
Being your Mayor for the last three years has been the most meaningful time of my professional life. We've built a town that is safe, beautiful, and prosperous despite the many challenges of fires and the pandemic.

This recall effort is being run by a small group of obstructive individuals who have wanted to push me out of office since I was first elected and are utilizing these unfounded allegations as a means to accomplishing their goal. They do not have Windsor's best interests in mind. They seek to advance their own leadership by any means necessary including tearing me down with false allegations. This group and their website was formed the week I was elected Mayor, long before any of the current accusations were made. This is a well-funded political takedown with no concern for the truth. They only care about accomplishing their objective of destroying a local leader who they feel threatens their 'vision' for our region. Let the justice system do its job before signing a recall petition that will cost taxpayers nearly \$100,000 that would otherwise go to our parks, roads, and public safety.

Your Mayor,

A handwritten signature in black ink that reads "Dominic Foppoli". The signature is written in a cursive, slightly slanted style.
